Jember

I am a student in the Information Systems Study Program, Faculty of Computer Science, University of Jember, I have a strong interest in Android and Front End Web Engineer. During my studies, I have developed my skills as an Android and Front-end Engineer, I also have project management, research, and analysis skills. I am known as a proactive individual, able to work on time, and have a high commitment to achieving academic and professional goals. I am a person who loves to learn and never gives up, I believe this is good for improving my quality in terms of hard skills and soft skills so that I am ready to continue in the world of work. I am excited to apply the knowledge and skills I have learned in a dynamic and challenging work environment.
